About the Graduate Catalog

University of Houston-Clear Lake's graduate catalog contains degree requirements for all graduate majors, rules that affect graduates, and descriptions of graduate courses. In the back of the catalog, there is a faculty listing for each college. The catalog provides additional helpful details including admissions information, application fees, transcript and records information and an overview of the university's services. This catalog was published in July 2020 and becomes effective at the start of the fall 2020 semester.

Course descriptions in the university catalog are correct as of the time of publication, but please confer regularly with your academic adviser in case there may be a change. UHCL reserves the right to change the requirements in the catalog at any time.

Graduate Catalog Archives

Archived university catalogs are available as PDFs beginning with the 2006–2007 academic year.
